

Unidad de diseño y síntesis de péptidos

Proyectos Actuales

2017-2020

Patrocinadora Fanny Guzmán.

Fondecyt posdoc Johana Gomez "Design, synthesis, characterization and evaluation of bioorganometallic compounds based on therapeutic peptides"

2018-2020

Patrocinadora Constanza Cárdenas

Fondecyt posdoc Nicolas Ojeda "Role of C-Type Lectin Receptors in the infective process of *Salmo salar* by the Infectious Salmon Anemia Virus: implications for strain-specific virulence and fish susceptibility"

2017-2020

IR Fanny Guzmán

Fondecyt regular: "First approach for purification and characterization of antimicrobial peptides (AMPS) from microalgae"
